

CCTV lenses

- A wide range of products from f=6mm to 100mm.
- Focus and iris are adjustable using attached locking screws.
- Camera mount: C mount

CCTV (Closed Circuit Television) lenses were developed to recognize images in a wide area. All models have an iris and focus adjustment that you can set as required with the included locking screws (*1). Using optional close-up ring and converter lenses allows for macro photographing. (*2).

*1 Not designed to be vibration proof.

*2 Tolerances of lenses may increase and image quality may worsen as a result.

ML-2514

Model	Focal distance	Focus (Fno.)	Field of view (VxH)	Closest distance	Filter screw	Weight (g)	Largest compatible CCD	Mount
ML-2514	25mm	F1.4~Close	21.6° x 28.5°	0.5m	M27 P0.5	45g	1"	C-mount

Field, WD, and magnification when a close-up ring is used

Close-up ring (mm)	ML-2514		WD (mm)	Magnification
