

## product introduction

Linear Polarizer is available for the ODDM-LX520 light. Polarizing filters can reduce reflections on specular surfaces. A polarizer can be added in the field.

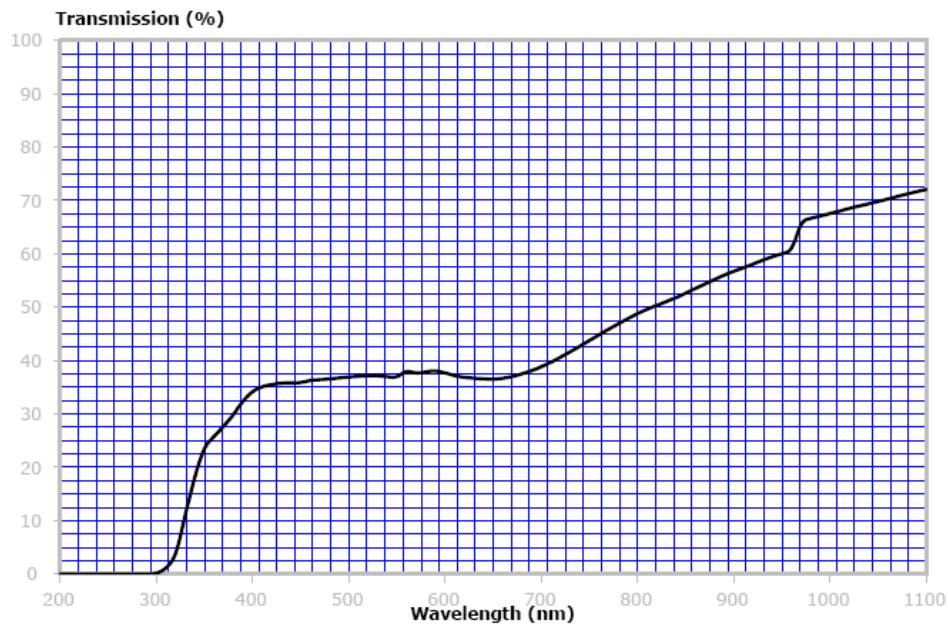

## product features

- Transmittance: single: 38%
- Color: neutral gray
- Polarizing Efficiency: 99.98%
- Wavelength: 400 ~ 700nm
- Thickness: .007" (.178mm)
- Direction: Linear
