

Linear Polarizer is available for the ODDM-300 light (Cognex Dataman 300 Reader). Polarizing filters can reduce reflections on specular surfaces. A polarizer can be added in the field.

- Transmittance: single: 38%
- Color: neutral gray
- Polarizing efficiency: 99.98%
- Wavelength: 400~700nm
- Thickness: .030" (.762mm)
- Direction: Linear
