

CCTV lenses

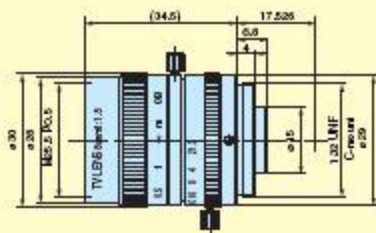

- A wide range of products from $f=6\text{mm}$ to 100mm .
- Focus and iris are adjustable using attached locking screws.
- Camera mount: C mount

CCTV (Closed Circuit Television) lenses were developed to recognize images in a wide area. All models have an iris and focus adjustment that you can set as required with the included locking screws (*1). Using optional close-up ring and converter lenses allows for macro photographing. (*2).

*1 Not designed to be vibration proof.

*2 Tolerances of lenses may increase and image quality may worsen as a result.

ML-0813

Model	Focal distance	Focus (Fno.)	Field of view (VxH)	Closest distance	Filter screw	Weight (g)	Largest compatible CCD	Mount
ML-0813	8mm	F1.3~Close	45.0° x 57.8°	0.2m	M25.5 P0.5	60g	2/3"	C-mount

Field, WD, and magnification when a close-up ring is used

Close-up ring (mm)	ML-0813			
	Field of view (length x width)		WD (mm)	Magnification
	1/2*	1/3*		
0	96 x 128	72 x 96	148	0.05
0.5	43 x 57	32 x 43	59	0.11
	77 x 102	57 x 77	115	0.06
1	27 x 37	21 x 27	34	0.18
	38 x 51	29 x 38	52	0.13
1.5	20 x 27	15 x 20	22	0.24
	26 x 34	19 x 26	31	0.19
