## RoHS Statement Cameras

Dear Sir or Madam,

**Directive 2011/65/EU of 8 June 2011** regulates the restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment (EEE). Prior RoHS Directive 2002/95/EC is repealed as from 3 January 2013.

For the purposes of Directive 2011/65/EU, no more than the maximum concentration value by weight in homogeneous materials as specified in its Annex II, in detail lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE), shall be tolerated in EEE placed on the EU market.

Further, **Delegated Directive (EU) 2015/863 of 31 March 2015** amending Annex II to Directive 2011/65/EU has been published by European Commission to add the following phthalates onto the list of restricted substances: Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP).

Basler declares the conformity with Directive 2011/65/EU as amended by Delegated Directive (EU) 2015/863 for all cameras manufactured by Basler.

Best regards

Soniya Struve, Product & Material Compliance Manager
